

## Physical Dimensions and Inspection Specifications

### SmartBall Characteristics

SmartBall Diameter	4" SmartBall	6" SmartBall	8" SmartBall	10" SmartBall
Outer Diameter of Tool	3.15"	5.3"	7.125"	8.75"
Suitable Pipeline Diameter	4"	6"	8"	10" and greater
Power Source	Lithium primary	Lithium rechargeable	Lithium rechargeable	Lithium rechargeable
Maximum Run Time	29.5 hours	55 hours	115 hours	115 hours

### Operating Environment

Maximum Pressure	138 bar (2000 psi)
Temperature Range	-10°C to 70°C (-14°F to 160°F)
Pipeline Product	Crude Oil, Synthetic Crude, Refined Products, Natural Gas

### Detection Capabilities

Level of detail	Locates leaks as small as 0.03 GPM (0.1 LPM)
Duration	Can be deployed for up to 115 hours

\*\* High temperature and pressure capability can be made available on request
